

## BRIEF SUMMARY

I'm a passionate tech enthusiast currently Pursuing my Master of Computer Applications (MCA) from Dy Patil University Ambi Pune. With a strong background in Bachelor of Computer Science (BCS) , I have developed a keen interest in programming languages such as Java, Python, and SQL. My curiosity and dedication have led me to explore various technologies, including HTML and CSS for web development.

Throughout my academic journey, I have consistently pushed myself to expand my knowledge and skills in the field of software development. I believe that adaptability and continuous learning are essential qualities for any aspiring programmer, and I strive to stay updated with the latest trends and advancements.

<b>Kendriya Vidyalaya No 2</b> 10 <sup>th</sup>   CBSE   CGPA: 6.60 / 10.00	2015

## PROJECTS

### School of Management

**Key Skills:** WordPress Plugins XAMPP

The existing system for a school of management in WordPress would typically involve a website built using the WordPress content management system (CMS). This website would contain information about the school, its programs, faculty, admissions, and other relevant details. It may also include features such as a blog, events calendar, contact forms, and possibly an online application system.

The WordPress project for the School of Management is designed to create a professional and user-friendly website to showcase information, news, and resources related to the school's management programs. This user manual will guide you through the key features and functionalities of the WordPress website.

## ASSESSMENTS / CERTIFICATIONS
